CITY OF NEW BRAUNFELS JOBLESS RATE HOLDS STEADY AT 4.0 PERCENT

Workforce Solutions Alamo releases March 2016 Job Report

(April 21, 2017) San Antonio, Texas – Workforce Solutions Alamo released information today indicating that the City of New Braunfels unemployment rate holds steady at 4.0 percent in March.

The City of New Braunfels unemployment rate registered lower than the overall jobless rate of 4.1 percent for the 8-county San Antonio-New Braunfels Metropolitan Statistical Area (MSA), which includes Atascosa, Bandera, Bexar, Comal, Guadalupe, Kendall, Medina and Wilson counties. The City of San Antonio registered a 4.0 percent unemployment rate, while the City of Cibolo registered 3.8 percent, the City of Schertz 3.9 percent and the City of Seguin 4.1 percent.

Comparing the Workforce Solutions Alamo metro area to the state and nation, the Texas unadjusted (actual) unemployment rate went down to 5.0 percent in March, compared to 5.1 percent in February. The nation's unadjusted (actual) unemployment rate dropped to 4.6 percent from 4.9 percent in March. Comparatively, the state and nation released seasonally adjusted unemployment rates with Texas showing a slight increase at 5.0 percent in March, while the nation's unemployment rate fell to 4.5 percent.

The mission of Workforce Solutions Alamo is to build a premier workforce in America by providing employers and residents with the opportunities, resources and services to develop and gain a competitive edge in the global economy. Workforce Solutions Alamo reaches over 8,000 businesses and more than 2.0 million residents in the City of San Antonio and the counties of Atascosa, Bandera, Bexar, Comal, Frio, Guadalupe, Gillespie, Karnes, Kerr, Kendall, Medina and Wilson counties. For more information on available workforce programs and services, visit our website at www.workforcesolutionsalamo.org.

Note: Only the actual/unadjusted series unemployment rate estimates for Texas and the US are comparable to sub-state unemployment rates, taking into account seasonal changes. Adjusted rates are calculated by smoothing out the changes in unemployment due to the typical seasonal hiring's and layoffs. Rates reported are estimates and changes in previously reported rates can occur with BLS readjustments.
